

# How Epion Helps

“ We are too busy with entering data into athena and dealing with paper. There’s just not enough time to actually help patients.

**Check-in™** eliminates the manual entry of demographic data and paper processing (i.e. printing, faxing and shredding)

VALUES  
**2.5 Hours**  
Per Day / Employee

**\$200 - \$300**  
Materials savings  
Per Month / Provider

**InsurPro™** enables you to verify insurance **ahead** of appointments

VALUE  
**Shorter lines**

“ *I wish we could get the front staff to do a better job of collecting patient co-pays and balances.* ”

Epion **Check-in™** forces a workflow by presenting patients with a detailed statement of balances due at the time of service.

VALUE

**10% - 20%**  
Increase in TOS  
Collections

“*The schedule is always falling behind, and I can't catch up because I have too much clinical data to enter into athena.*”

With **Check-in™**, patients update their own information ... and the clinical staff only needs to review and reconcile.

VALUE

**3 - 6**  
**Minutes Saved**  
**Per Patient**

*For my more complex patients, I don't have enough time to complete enough history that would allow me to bill at levels 4 and 5, when applicable.*

Epion **Check-in**<sup>™</sup> forces a workflow that allows the patient to complete a thorough history and review of systems... making it much easier to meet the heavy Office Visit history requirements.

VALUE

**\$300 - \$400**  
Per Month Per  
Provider

“ We have to work too many claims based on not having accurate patient information.

**Check-in™** ensures much more accurate demographic data leading to fewer denied claims.

VALUE

**1% - 3%  
Denied Claims  
Reduction**

**InsurPro™** enables you to identify non-participating insurances and authorizations issues **ahead** of time.

VALUE

**Fewer Failed  
Appointments and  
Write-Offs**
